GADGET LOVE

'I have collected 15 cellphones'

Actress Pooja Gor on how addicted she is to her gadgets

I am a tech freak. I just love gadgets! If there is a new phone in the market, I have to own it. My buying and collecting spree is always on because I get attracted to the new and additional features, which phones tend to have these days. Technology is changing rapidly and so there is always something new out there to grab. I started my collection about a year back and I have collected about 15 phones already. Initially every-

one on the sets of *Pratigya* used to get very excited seeing a new cell in my hand almost every month. But now they are used to it and in fact they ask me when will I stop changing phones. I don't think my love for phones is going to end anytime soon as there are still more phones on my wish list that I wish to own someday.

As told to Deepali Dhingra
